

Feature No	User story	Feature name	Feature priority (P0/P1/P2)	Requirement No	Requirement name	Requirement	Requirement priority (P0/P1/P2)	Comments (potential dependencies, risks, etc)
1	As an admin, I want to be able to create, edit and delete teams, so that the championship can be generated based on registered clubs.	Team management	P0	1.1	Create team	User shall be able to create a new team and assign it to an age category (e.g., U13)	P0	Admin-only access
				1.2	Edit team	User shall be able to change team name, age category, and players list	P0	Only before season starts
				1.3	Delete team	Program should allow deletion of team (with confirmation prompt)	P0	Risk: accidental data loss
				1.4	View teams	Any user shall be able to view list of teams by category	P0	Used in match generation
				1.5	Assign players	Coach shall be able to add/edit players in their own team only	P0	Role-based control
2	As an admin, I want to be able to create and manage referee profiles, so the system can assign them to matches appropriately.	Referee Management	P0	2.1	Create referee	Admin shall be able to add new referee profile with name, date of birth, experience count	P0	Experience is number of judged matches
				2.2	Edit referee	Admin shall be able to edit referee data, including profile photo	P0	Photo optional
				2.3	Delete referee	Program should allow deleting referee profiles if they have no assigned matches	P0	Prevent data inconsistency
				2.4	View referee list	Any user shall be able to view list of referees (basic info only)	P0	Referee stats shown per week
				2.5	Experience levels	System shall categorize referees by experience thresholds for age category assignment	P0	<10 matches = U11, 10–19 = U12, etc.
3	As an admin, I want the system to automatically generate the full-season match schedule based on registered teams, so I don't have to create fixtures manually.	Season Schedule Generator	P0	3.1	Generate full season	Admin shall be able to trigger automatic season schedule generation for all age categories	P0	Triggered once before season start
				3.2	Round-robin logic	Program shall use round-robin algorithm to ensure fair distribution of matches	P0	Each team plays each other once or twice
				3.3	Weekly match grouping	Program should group matches into weekly rounds (tours)	P0	Match count ≈ 200/week
				3.4	Store generated fixtures	Program shall store match fixtures in database with date, teams, and category	P0	Used for assignment module
				3.5	View generated schedule	Any user shall be able to view schedule filtered by category and team	P0	Also accessible to coaches and players
4	As an admin, I want the system to automatically assign referees to matches based on their experience, so that each match has a suitable and available official.	Referee Auto-Assignment	P0	4.1	Match–referee assignment	Program shall assign one referee to each match according to referee's experience and availability	P0	Single-referee mode for MVP
				4.2	Experience thresholds	System shall restrict referee's eligibility to certain age categories based on match count	P0	E.g. <10 = U11 only
				4.3	Assignment balance	System should distribute matches fairly between referees within the same tier	P0	Prevent overloading same referee
				4.4	Conflict prevention	System should avoid assigning same referee to overlapping matches	P0	Time clash check

				4.5	Manual override	Admin shall be able to manually edit referee assignments after automatic generation	P1	Optional but useful — tied to role access
5	As a referee, I want to enter match results and incidents into the system, so that match data is recorded and standings can be updated automatically.	Match Report Submission	P0	5.1	Report access	Referee shall only have access to matches they are assigned to	P0	Role-based filtering
				5.2	Enter final score	Referee shall be able to input final score (goals per team)	P0	Used for league table
				5.3	Enter cards and events	Referee shall be able to add red cards and other key events (optional yellow, goals, notes)	P0	Events optional in MVP
				5.4	Submit report	Once completed, referee shall submit the report to finalize the match	P0	After submission = read-only
				5.5	Admin override	Admin should be able to edit any match report if necessary	P1	For edge cases
6	As a coach or player, I want to see an up-to-date league table, so I can track my team's progress throughout the season.	Standings Auto-Update	P0	6.1	Auto-update on report	Program shall automatically update standings after each submitted match report	P0	Triggered immediately
				6.2	Points calculation	Program shall calculate points: 3 win, 1 draw, 0 loss	P0	Classic system
				6.3	Goal difference	Program shall calculate and sort by goal difference in case of tie	P0	GD = goals scored – goals conceded
				6.4	Sorting rules	Standings shall be sorted by: points → goal difference → goals scored	P0	As in most leagues
				6.5	Filter by age group	Users shall be able to view standings by category (U11, U12, etc.)	P0	Required for multi-division season
7	As a system administrator, I want users to have different access levels depending on their role, so data is protected and relevant only to them	Role-Based Access Control	P1	7.1	Player access	Players shall only be able to view their own team's schedule and standings	P1	Read-only
				7.2	Coach access	Coaches shall be able to view and manage their own team roster	P1	No access to other teams
				7.3	Referee access	Referees shall see only assigned matches and fill in reports	P1	Write access limited to match report
				7.4	Admin access	Admin shall have full access to all data and configuration	P1	For setup and corrections
				7.5	Role enforcement	System shall enforce access restrictions automatically	P1	Based on login or session role
8	As an admin, I want to be able to manually edit match details, so I can make corrections or reschedule games if needed.	Match-editing	P1	8.1	Edit match details	Admin shall be able to change date, time, or location of any match	P1	Useful for rescheduling
				8.2	Edit assigned referee	Admin shall be able to reassign referee manually	P1	Optional override
				8.3	Lock after match played	System shall prevent editing of matches that already have reports submitted	P1	Ensures data consistency
				8.4	Track manual changes	Program should store metadata of manual changes (who and when changed)	P2	For audit trail
				8.5	Cancel match	Admin shall be able to mark match as cancelled or postponed	P1	Optional status field

9	As an admin or referee, I want to see how many matches each referee has judged, so I can track their experience and workload.	Referee stats overview	P1	9.1	Total matches count	System shall display total number of matches judged by each referee	P1	Key metric for experience
				9.2	Filter by date	User shall be able to filter referee stats by week, month, or full season	P1	For balance and fairness
				9.3	Category breakdown	System should show how many matches were judged in each age category	P1	Optional for MVP
				9.4	Export stats	Admin should be able to export referee stats to CSV or view summary	P2	For reporting or review
				9.5	View own stats	Referees shall be able to view only their own statistics	P1	Restricted by role
10	As an admin, I want to export match schedules, standings and referee stats to CSV, so I can use them in external tools or share them easily.	CSV Export	P2	10.1	Export schedule	Admin shall be able to export full season schedule to CSV	P2	Includes: date, teams, category, referee
				10.2	Export standings	Admin shall be able to export league tables by category	P2	Weekly or full season
				10.3	Export referee stats	Admin shall be able to export match counts and category breakdown per referee	P2	For offline analysis
				10.4	Filter before export	Program should allow user to apply filters before exporting	P2	Optional
				10.5	File naming	Exported file name should include type and timestamp	P2	E.g. Standings_U13_2025-07-05.csv
11	As a user, I want to see team logos and referee photos in the system interface, so that the platform feels more personalized and easier to navigate.	Visual Enhancement	P2	11.1	Upload team logo	Admin or coach should be able to upload a team logo	P2	Optional, not required for functionality
				11.2	Display team logo	System should display logo next to team name in standings and match schedule	P2	Cosmetic only
				11.3	Upload referee photo	Admin should be able to upload photo to referee profile	P2	Not mandatory
				11.4	Display referee photo	Referee photo should be shown in match details or referee list	P2	Optional UX boost
				11.5	Default icons fallback	If no image is uploaded, system shall display a default icon	P2	Prevent layout issues
